Promotes Breast Cancer Awareness Month
October, 2003

The 2003 Breast Cancer Awareness ornament was designed and produced by Baton Rouge glass artist, Diane Roche. Diane feels honored to be able to combine her current career with her lifelong calling to heal and nurture. You see, Diane is also an LPN. Diane has been creating beautiful etched and carved images in glass and stone for the past 8 years. Self-taught, Diane uses her creative talents as a means of expressing herself and her compassion for others.
